**Atlantis Models**

**"Preserving the Past while Building the Future"**

Long Island, NY, July 22<sup>nd</sup>, 2019

Atlantis Model Co. is proud to announce they have established a new partnership with the United States Department of the Navy. The new 3 year License Agreement will allow them to go forward with many kits that have US Navy and Blue Angels markings. Many of these models have not seen the light of day for decades and should be well received by the model building community. They are opening and examining the steel molds for refurbishment, redesigning decal sheets, and reworking the instructions to bring these new releases into the 21<sup>st</sup> century.

Look for a complete list of the upcoming releases with approximate dates on the Atlantis Models website at [www.atlantis-models.com](http://www.atlantis-models.com).

The first 2 releases they have planned are the S2F Hunter Killer (ex-Aurora) and the P-3A Orion (ex-Revell) US Navy Aircraft. Be sure to look for the US Dept. of the Navy Hologram sticker proudly displayed on their model kit boxes!
